

Meyer® EZ-WINGMP™

RELIABLE MULTI-POSITION WINGS

Box, Scoop or Straight (or anything in between)

MULTI-POSITION WINGS for Lot Pro Snow Plows

EZ-Wing MPs can easily be added to any existing Lot Pro moldboard without blade modification to greatly improve the performance and efficiency during plowing. Each wing can be positioned independently to create a box, scoop or straight blade configuration, providing users the flexibility needed during changing conditions by simply removing one pin. EZ-Wing MPs add nearly 2.5 ft. of overall length to Lot Pro moldboards, are full moldboard height and have an adjustable reinforced rubber cutting edge that eliminates snow trails.

- 1 Single pin adjustable ram for creating up to nine different moldboard configurations
- 2 Built-in handle for easy wing installation/removal
- 3 Pins provide fast connection for quick installation
- 4 Integrated handle on pivot pin for quick removal
- 5 Full moldboard height (32") and provides nearly 2.5 feet overall width
- 6 Easy-access grease port for smooth operation
- 7 Adjustable reinforced rubber cutting edge eliminates snow trails

EZ-Wing MP
Part# 08105
(1 Set)

Meyer EZ-Wing MP is easy to adjust in any weather condition by simply removing one pin.

No modification is necessary.
Available for Meyer Lot Pro Plows only.

FIXED-POSITION WINGS
