

Base Line Spreaders

Meyer Base Line Spreaders are perfect alternatives for professionals that want a full featured spreader at an economical price.

Base Line Spreaders

Large product offering for every application.

Broadcast Spreader

BL-85
Part# 38115

HOTSHOT-85

Treats sidewalks and walkways with 10 ft. spread width and large 85 lb. hopper capacity. The rustproof poly hopper and spread plate eliminate corrosion.

SPECS:

Capacity: 85 lbs.

Materials: Bagged rock salt, free flowing granular material

Construction: Polyethylene hopper, carbon steel frame

Spread Width: 10 feet

Warranty: 1 year

FEATURES:

Easy-to-adjust material flow controller is conveniently located on the handle.

Pneumatic tires make it easier to push over snow covered pavement.

Hopper cover ideal for keeping material dry.

BL-120
Part# 38210

HOTSHOT-120

The economical Meyer Hotshot-120 is a lightweight but durable walk-behind spreader built for all-season use. This broadcast spreader features a large 120-pound rust-proof poly hopper with an internal material agitator that allows even material flow to the spinner. It's perfect for professional year-round use.

SPECS:

Capacity: 120 lbs.

Materials: Bagged rock salt, free flowing granular material

Construction: Polyethylene hopper, powder painted steel frame

Spread Width: 3-10 feet

Warranty: 1 year

FEATURES:

Rust-proof polyethylene hopper with an internal material agitator allows even material flow to the spinner and prevents clogging.

Internal filter screen ensures free flow of material to the internal agitator and breaks up clumps of material.

Remote flow gate control allows quick and easy adjustment when dispersing material while the **flow gate memory lock** allows a pre-set, predetermined flow of material.

13" pneumatic wheels allow for better traction when pushing over ice and snow covered pavement.

If it has four wheels,
we have the spreader for it.

ATV Spreader

BL-125
Part# 31125

BL-125

Introducing the Meyer Base Line-125 tailgate spreader; it's the perfect choice for those who want an economical, yet full-functioning, spreader for the back of their ATV vehicle. The BL-125's low profile allows salt, calcium chloride, fertilizer and seed to disperse closer to the ground allowing better control of material output.

SPECS:

Capacity: 125 lbs.

Materials: Bagged rock salt, free flowing granular material

Construction: Polyethylene hopper

Spread Width: 3-10 feet

Warranty: 1 year

FEATURES:

Poly hopper comes standard with a built-in material agitator which spreads the flow of material evenly the first time

Internat filtering screen*

breaks up large clumps of material allowing a steady flow of material to the agitator allowing free flow to the spinner for trouble-free, reliable performance.

Impeller spinner shaft

adjusts the spread pattern from 3-4' to 8-10'. This feature saves time and money because you are able to spread material exactly where you need it every time.

*screen not needed when spreading #2 rock salt

Tailgate Spreaders

BL-240
Part# 31100

BL-240/BL-400

These easy-to-use spreaders are perfect for small-to medium size jobs. They attach to any SUV, light pick-up, tractor or utility vehicle with a 2" receiver hitch. Features a 1/8 HP direct drive motor and two-speed controller to grind through large chunks of material.

SPECS:

Capacity: 240 lbs. and 400 lbs.

Vehicle Application: Class 1, SUV, light truck, 3/4 or 1 ton trucks and utility vehicles

Materials: Bagged rock salt

Construction: Polyethylene hopper, carbon steel frame

Spread Width: 25 feet

Warranty: 1 year

OPTIONAL ACCESSORY:

- **Flow gate controller** (Part# 34900)
- **Illuminated variable speed controller** (Part# 22800)
- **3-Point hitch kit** (Part# 36500)

BL-400
Part# 36100
Shown with optional flowgate controller.

FEATURES:

Integrated storage stand and motor guard

serves as a storage stand in the off-season. Protects motor during spreader operation.

2-speed controller

is easy to use and delivers a precise spread-pattern of up to 25 feet.

2" Receiver mount

for mounting directly to the vehicle.

Insert Hopper Spreader

BL-600
Part# 64238

BL-600 INSERT HOPPER

Extra large 1.5 cu. yd. capacity hopper is constructed from stainless steel and can spread salt, sand or salt/sand mix up to 30 feet. The full line drag chain and chain shield prevents material from clogging. The super reliable 6.5 HP Briggs and Stratton motor makes quick work of even the toughest materials.

FEATURES:

In-Cab Controller with Electric Start mounts conveniently in the cab and is fully accessible by the operator.

Material Movement System (MMS) provides even flow of material to the spinner. (Shown with optional inverted vee)

SPECS:

Capacity: 1.5 cu. yds.
Vehicle Application: Long/short bed trucks
Materials: Salt, 50/50 salt/sand mix, sand or free flowing granular material
Construction: Stainless steel
Spread Width: 30 feet
Warranty: 1 year

OPTIONAL ACCESSORY:

- **Baffle plates** (Part# 64240)
- **Top screen** (Part# 64239)
- **Inverted vee** (Part# 64242)
- **Tie down kit** (Part# 62562)
- **Tarp kit** (Part# 64246)
- **6" Side extension kit** (Part# 64241)
- **Pre-wet kit** (Part# 63938)
- **Vibrator kit** (Part# 63390)

Dump Truck Spreader

BL-960
Part# 64230

BL-960 UNDER TAILGATE

Add to any new or existing dump truck for spreading free flowing materials. The 96" body is constructed from 10 gauge stainless steel to provide years of trouble-free service. The driver side discharge locates material in the center of the road to cover both lanes. The 18" poly spinner has a spread pattern from 4 to 40 feet and is controlled conveniently in-cab by the operator.

FEATURES:

Hydraulic Safety Interlock System disables the auger when opening the bottom door – cleaning and/or maintenance work becomes much safer and easier.

SPECS:

Vehicle Application: Medium-duty dump-trucks (15,000 GVW and up)
Materials: Salt, 50/50 salt/sand mix, sand, free flowing granular material
Construction: 10 gauge stainless steel
Spread Width: up to 40 feet
Warranty: 1 year

OPTIONAL ACCESSORY:

- **Stabilizer kit** (Part# 64231)
- **Side shields** (Part# 64232)
- **Pre-wet kit** (Part# 63921)

Direct Drive Hydraulic Motor

utilizes vehicle central hydraulic system and provides higher performance and decreased maintenance.
