

Introducing a snow plow mount fit for a Mercedes Benz

NO FABRICATION NEEDED – AVAILABLE ONLY FROM MEYER PRODUCTS

Fits 2006 to Present Mercedes Benz Sprinter

Meyer offers a customized mount (Part# 17177) that fits 2006 to present Mercedes Benz Sprinter models that is designed to meet the operational requirements of these vehicles. It utilizes a Meyer 229 cm full-trip Drive Pro moldboard with the Drive Pro's EZ-Mount Plus™ mounting system which attaches/detaches easily and quickly.

The moldboards listed below meet the application requirements of the front G.A.W.R. and are designed for commercial applications. The Drive Pro moldboards are available in both steel and polyethylene and offer excellent maneuverability in tight spaces.

For questions, e-mail: kamblock@meyerproducts.com

Shown with optional Polyhawk insert hopper spreader.

The Drive Pro's EZ-Mount Plus™ features an under carriage mounting system that virtually hides the mount, leaving your Sprinter with a clean, neat appearance when the Drive Pro plow is removed. But when the work needs to get done, mounting the plow is quick and easy. Simply pull up, connect the power supply, insert two pins and you're on your way.

Drive Pro 229 cm Product Specifications
