DRIVE PRO

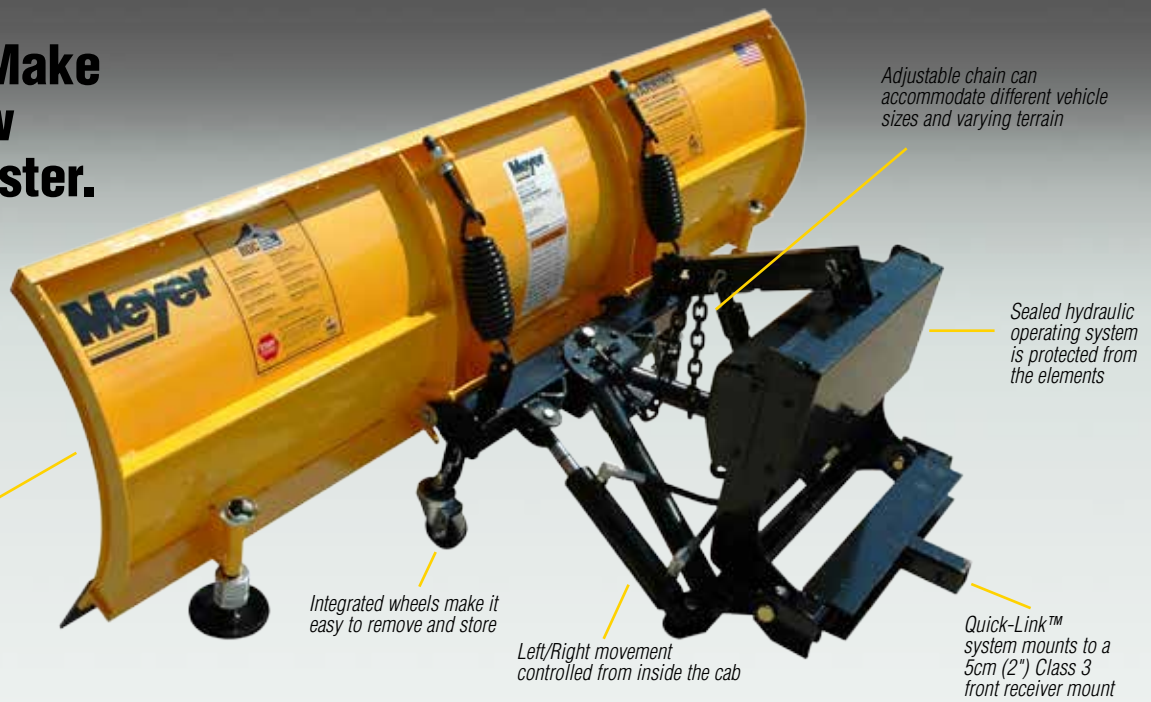

Get Big Performance When You Need It.

The EZ-Mount Receiver Hitch Plow is the perfect solution when unexpected storms arrive and you need to clear snow from your driveway. The easy-to-use plow features Meyer's 5cm (2"), Class 3 front receiver mount and is available in three moldboard sizes – 1,52m (5'), 1,82m (6'), 2,03m (6'8") and 2,29m (7'6") – to suit your application. Available in power or self-angling models.

Meyer's EZ-Mount Receiver Hitch Plow allows you to remove or mount the plow in seconds.

Designed To Make Clearing Snow Easier and Faster.

Dura Slick™ powder paint provides better snow rolling action

Integrated wheels make it easy to remove and store

Left/Right movement controlled from inside the cab

Adjustable chain can accommodate different vehicle sizes and varying terrain

Sealed hydraulic operating system is protected from the elements

Quick-Link™ system mounts to a 5cm (2") Class 3 front receiver mount

EZ-Mount® Receiver Hitch

comes on/off the vehicle in seconds by removing one pin.

Step 1: Insert or remove the pin

Step 2: Position the wheels

Step 3: Connect/disconnect power plug

Step 4: Roll the plow away

One-Button Control

All EZ-Mount Receiver Hitch Plows come standard with an ergonomically designed pistol grip controller that features intuitive buttons to easily control the functions of the plow.

- Full power-angling controller allows the plow to go up/down, left/right like a traditional plow.

- Self-angling controller allows the blade to go up/down by pressing a button. Right/left movement is controlled by the weight distribution of the snow on the plow.

The optional Self-Angling System senses the weight of the snow and automatically angles to push snow off to the side. Or, if you prefer, you can lock the plow in the direction you want.
