

# 100lb Drop Spreader

Designed for Professional use

This 100lb drop spreader features a thirty-six wide stainless-steel hopper with an aggressive agitator to help break up clumps of ice melt. The accurate drop pattern helps to protect your expensive landscaping. Made for commercial use in seeding sport turf fields where rate accuracy is essential.

## FEATURES

- 100-pound stainless heavy gauge steel hopper
- Professional-grade tool designed for commercial applications.
- Integrated front lift handle for loading & unloading out of trailers and pickup trucks.
- 13" high traction air filled tires to grip winter services or glide over soft greens. rustproof poly rims
- Solid linkage controls (no cables to stretch or break).

Heavy duty cover keeps material dry and keeps light seeds like Bent grass from being lost.

13" pneumatic tires with good cold weather grip and rustproof high strength resin rims

Pro style spring loaded shut-off and commercial T-Handle
