Meyer
REINVENTED EVERY DAY.

For About Half The Cost?

Introducing the Meyer® Face-Lift Program:

Meyer® knows our owners take pride in the appearance of their snowplowing vehicles, but we also know times are tough and purchasing a new plow might be a strain on your budget. Thanks to Meyer's innovative new plow designs, it is now easy and affordable to upgrade from a Classic Meyer Plow to an all-new Meyer Pro Series moldboard for about **HALF THE PRICE** of a NEW complete plow system.

Here's how the Face-Lift Program works:

- Keep your current mount, hydraulic unit, controller and lights
- Purchase a new Meyer Pro Series moldboard and PAF which provide better performance with improved snow rolling action and aggressive attack angles
- Select the accessories you may want to add to your new plow including wings, curb guards or deflectors
- Receive the benefit of Meyer's exclusive 5-year warranty, the best in the business

*Your Wallet Won't Suffer.
Your Appearance and Productivity Will Improve.*

Upgrade to one of these Pro Series plows:

Drive Pro moldboard

Lot Pro shown with optional wings and deflector.

Diamond Edge bottom-trip moldboard

Upgrade now to a Pro Series and get your warranty extended.

The Industry's Best Warranty Protection.

* Register new plow online at
www.meyerproducts.com
to activate five full years.

Upgrade to the best performing plows in the business for about half price.

Over the past few years, Meyer® started with a clean sheet of paper and completely redesigned their entire line of plows.

The result was a simplified design that creates a stronger, more durable plow. All components are joined together using slot and tab construction – a sturdy and more precise way to fit steel together. Attack angles and A-frames have been redesigned to increase strength, especially at key pressure zones. Three reinforced points-of-contact and a tubular bar along the entire back of the moldboard increase torsional strength.

The pivot bar is constructed using heavy walled tubular steel for added strength and rigidity.

Pro Series plows utilize a larger king bolt that is 41% stronger and can withstand a load 2.4 times greater. Features easy-to-reach grease fitting for longer service life.

All Pro Series moldboards feature increased height and aggressive attack angles for excellent plowing performance.

Meyer® Face-Lift Program.

The Meyer Face-Lift Program is available for the models listed below:

EZ-Mount **Classic** Mounted Plows

Classic Plow System to be Replaced	Upgrade Classic Series to Pro Series (includes plow, pivot and A-frame)	
	Description	NEW Package #
TM 5.0	Drive Pro - DP 5.0	09374
TM 6.0	Drive Pro - DP 6.0	09375
TM 6.5 / TML 6.5 / TMP 6.5/TMP 7.0	Drive Pro - DP 6.8 (Steel Only)	09376
ST 7.0 / ST 7.5 / STL 7.5*	Drive Pro - DP 7.5	09380
STP 7.5*	Drive Pro Poly - DPP 7.5	09381
C 7.5	Lot Pro - LP 7.5	09382
C 8.0	Lot Pro - LP 8.0	09383
C 8.5	Lot Pro - LP 8.5	09384
C 9.0	Lot Pro - LP 9.0	09385
CP 7.5	Lot Pro Poly - LPP 7.5	09386
CP 8.0	Lot Pro Poly - LPP 8.0	09387
CP 8.5	Lot Pro Poly - LPP 8.5	09388
CP 9.0	Lot Pro Poly - LPP 9.0	09389

EZ-Mount **Plus** Mounted Plows

Classic Plow System to be Replaced	Upgrade Classic Series to Pro Series (includes plow, pivot and A-frame)	
	Description	NEW Package #
ST 7.0 / ST 7.5 / STL 7.5*	Drive Pro - DP 7.5	09390
STP 7.5*	Drive Pro Poly - DPP 7.5	09391
